Rehearsals in Progress Show That Performance Will Be Worth While.

Swinging to the rhythmic accompaniment of merry musical numbers, the annual Elks' minstrel show will go on the boards at the Texas Grand theater Thursday night for the initial performance of this year. Seats went on sale today at Ryan's.

Rehearsals are being held nightly and tonight the boys will meet at the Texas Grand theater in order that they may become acquainted with the stage. Max Miller's rendition of "I Ain't Got Nobody" is a negro showing song that he bound to take the audience by storm. Max Miller is an end man par excellence and he has a smile that would make "Sunny Jim" jealous.

Harry Hyman has introduced a new dance that is the wonder of the day. He is the "something different" in an amateur minstrel show that the Elks have lacked in former productions.

Barry Hagedorn, who always makes them laugh, has a scream up his sleeve that he will "kick" when the curtain is rung up Thursday night. Barry has long been a favorite with the minstrel lovers of El Paso and his song this year is the best that he has ever sung. Julius Albert, who tickled the audience last year with his rendition of "Five Fifteen" is on the program this year with a brand new song that is most timely.

The finale is the greatest tableau ever arranged and shows the knowledge of stage and training that Charlie Armstrong, the director, puts to the best advantage.

The whole show, from start to finish, is the best that has ever been put on by an amateur troupe in El Paso, according to those who have seen the rehearsals.

Because of the rehearsals, there will be no regular meeting of the lodge to night.

## TODAY'S AMUSEMENTS

"MARGUERITE CLARK." Last April the Alhambra had the pleasure of showing one of the most delightful photoplays ever brought to this popular house. Marguerite Clark, the adorable Famous Playmate, appeared as Molly in a photoplay called "Molly Make-Believe," a film play that has been running all over the country. Those who failed to see this fine feature at its initial showing, have been urged in their requests for a return showing, and so much interest has been shown that the Alhambra

## "Health Is the First Wealth"

The rich man suffering from asthma or pulmonary trouble knows this even better than the poor man thus afflicted. Either may be able to obtain relief by using Eckman's Alternative, a preparation containing calcium chlorid, which for more than twenty years has been giving widespread satisfaction in such cases.

Of course, its use should be seconded by rest, pure food and fresh air, for no medicine can be of much help where these provisions of Nature are not made use of. But in numerous instances where they have not produced desired results, Eckman's Alternative has furnished the missing link in the chain.

It contains no poisonous or habit-forming drugs, so a trial is safe.

## COUNTY SCHOOLS ALL ARE CLOSED

Average Length of Term in County Was Seven and One-Fifth Months.

All the county schools have closed for the summer vacation period. The last to close were the Smelter, Lincoln Park, Grand View and San Elizario schools, which finished work on Friday. These were schools running the full nine months. The Fabens and Sierra Blanca schools, which also ran nine months, closed two weeks ago, having observed no vacation period during the Christmas holidays.

## Average Term 7-1-5 Months.

Despite the fact that many of the county schools are located in sparsely settled districts, the average length of the school year during the year just closed was seven and one-fifth months. The school terms in the various schools were as follows:

Canutillo, six and one-half months; La Tuna, six and one-half months; Grand View, six months; Lincoln Park, nine months; Smelter, nine months; Ysleta, seven and three-quarters months; San Jose, seven and three-quarters months; Texas, seven and three-quarters months; Belen, eight months; Socorro, eight months; San Elizario, nine months; Fort Hancock, four and one-half months; Iser, three and one-half months; Clint (American), eight months; Clint (Mexican), eight months; Sierra Blanca (Mexican), nine months; Sierra Blanca (American), six months; Alamo, eight months; Hot Wells, eight months; Dugan, six months; Island, five months; Fabens (American), seven months; Fabens (Mexican), nine months; Tornillo, three and one-half months.

## Outlook Is Promising.

The prospects are bright for the coming school year. The indications are that the state school fund apportionment during the coming year will be \$3 per child of school age, and this, with a substantial increase in the number of school children, as shown by the recent school census, will permit of long school terms.

In several of the districts there will be new school buildings. Among these are the Grand View and Lincoln Park school buildings, which are now nearing completion and which will be modern, providing not only for regular class work, but for manual training and domestic science as well.

## EL PASO LEAD FROM VAN HORN

New Mexico Cattlemen Report Heavy Losses in Lambs and Kids.

Alamogordo, N. M., May 23.—A stockman from the Texas-New Mexico boundary, southeast of this city reports that stockmen in his neighborhood are hauling off cake for feed for their herds from Van Horn, Texas, a distance of 80 miles and are paying \$22 per ton for the cake. He said there will be a little loss of animals if rain comes within a month.

## Loss Heavy in Lambs.

The loss of lambs and kids in the southern part of Otero county will be heavy because of the dry spring, according to reports received here. One sheepraiser will probably lose \$5000 worth of spring crop. Some and most ranchers explain, are not like cattlemen. A mother sheep will desert her young if she has not sufficient milk to nurse it, but a cow will persist even a yearling to suck till she drops. A few storms have killed many young lambs.

## Cattle Shipped to Pasture.

Ten cars of cattle have been shipped during the past ten days from the U. ranch near Saragosa to White Deer, Texas, to be put on pasture. The cattle were shipped to Sweetwater and transferred to the Santa Fe there. The shipment consisted of 505 head, all owned by Al Popham.

## A. S. Smith has shipped three cars of steers from his Davis Mountain ranch to Fort Worth.

## RANGE IN ORANGE DISTRICT OF OTERO IS NEEDING RAIN

Alamogordo, N. M., May 23.—There has been no rain at Orange in the extreme southern part of Otero county for several months. Grass is becoming scarce and stockmen will likely lose a great many of their calves. The cattle in that section of the country are feeding off cake in order to keep their stock alive.

The Crow flat country, of which Orange is the postoffice and trading place, is heavily stocked with cattle, there being a number of big ranches besides the homesteaders and farmers, who are nearly all interested in cattle.

Should the rains start within the next 30 days, stock losses will not be heavy, but if relief does not come soon, the grass near the watering places will all be gone and the stockmen will have to move their stuff to some other part of the state, which will cause quite a loss as cattle will die on the way to other places on account of being too weak to stand the trip.

## SANTA FE WILL ENLARGE ITS STOCKPENS AT MAGDALENA

Magdalena, N. M., May 23.—As a result of the visit this week of president E. P. Ripley of the Santa Fe railway, and other officials, the railroad stockpens at Magdalena will be enlarged soon. Portions of the right of way will likely be leased for commercial purposes.

The county commissioners have ordered the construction of a bridge across the San Francisco river opposite the village of Reserve.
